Click on the August 2008 issue devoted to Minimally Invasive Procedures for **bonus content**: Online access to 21 **videos** on procedures like posterior prostatic dissection, extraperitoneal balloon access, and developing the space of retzius, to name a few.

Comprehensive, state-of-the-art reviews by experts in the field provide current, practical information on the diagnosis and treatment of conditions affecting urologic system and genitalia. Each issue of *Urologic Clinics of North America* focuses on a single topic relevant to your urology practice, including prostate cancer, sexually transmitted diseases, erectile dysfunction, renal cancer, dermatologic issues, fertility issues, ureteroscopy, and laparoscopic surgery. Also available for purchase to subscribers of this series: valuable CME credits - up to 60 per year.

**UROLOGIC SPOTLIGHT**  
 Related Clinical Issues from *Other Clinics of North America Series*  
**Current Concepts in Genitourinary Pathology: Prostate and Bladder**  
 from *Surgical Pathology Clinics*
